

TREKKING LAGUNA ESMERALDA

Starting around 9 am our guide pick you up by your hotel or place to drive for about 19 km on road number 3 to access the trail to Laguna Esmeralda. It is a 6/7 hs trekking of medium difficulty. After equipment check (trekking waterproof boots, wind breaker and water proof jacket, polar sweat shirt, wool cup, gloves, sun glasses and sun tan lotion) the guide provides each participant trekking poles, ice cleats and

the included box-lunch (ham and cheese sandwich, granola bar, apple and a bottle of mineral water). 8 km is the total length of the trail, going through the fueguian forest and peat bogs to reach Laguna Esmeralda, totally frozen during the winter months allowing the walkers to do it on the ice. Great landscape views of the Andes are obtained together with portions of the forest, beaver lodges and also the opportunity to watch some of the species that inhabit the area (geese, ducks, foxes, giant wood pecker, some condors, eagles and crested cara cara). There is plenty of time for pictures and to eye and breath in the spectacular fueguian scenery.

Schedule:

Difficulty: medium

Duration: 5/6 hs.

Included: Box lunch(ham and cheese sandwich, granola bar, apple and a bottle of mineral water). Vegan/vegetarian, celiac options, too.

Bilingual guide. Spanish/english.

Activities: trekking, wildlife watch and photography.
