

LAGOS ESCONDIDO Y FAGNANO

CONVENCIONAL

Excursion begins around 9 am from your hotel or apartment when one of our comfortable units pick you up. Driving on national road number 3 we tour through several valleys to reach the region of the lakes not before crossing the Andes mountain range. First stop is at Valley of Carbajal 's panoramic viewpoint, there, the guide offers information in reference to the last ice age and how signs of its work can be seen in the surrounding scenery. Valley of Tierra Mayor is the next stop. This winter resort offers activities on the snow and the passangers have plenty of

time to do some of them if they so wish. The place is a restaurant too, and it is were we will have lunch later on the day. Continuing northward on road number 3 we drive by Cerro Castor Winter Resort, that give service to ski and snowboard lovers. The road winds between valleys and mountains reaching Paso Garibaldi, a mountain pass in the Fuegian Andes, offers a magnificent panoramic view point full of spectacular landscapes of Lago Escondido framed by the

nothofagus forest while on the second ground part of the great Lago Fagnano can be seen. After the guide 's presentation people has plenty of time for pictures and contemplation of the fuegian landscapes. The road descends toward the lake shore of Lago Escondido and then Lago Fagnano, too, with plenty of time for photo opportunities, wild life watching while the guide delivers information about history and particularities of the region. Around 2 pm the excursion drives back on road number 3 to valley of Tierra Mayor for lunch (not included)
