

FULL DAY WINTER

The day begins early at 9 am. We will pick you up from your hotel or apartment and head to Tierra Mayor Valley,

located approximately 19 km northeast of Ushuaia on National Route 3.

Once we arrive we listen to our guide's recommendations and we will put on snowshoes to embark on a 90-minute tour to visit various panoramic points in the valley. We will

have the opportunity to admire the flora and fauna of Tierra del Fuego and be captivated by the breathtaking views of the surrounding forest, mountains, streams, and glaciers. After this activity, we will board a specially adapted all-terrain vehicle with caterpillar tracks that can navigate challenging terrains and reach remote locations. The ride will culminate at the Nunatak's refuge, a beautiful cabin where we will enjoy a delicious lunch (empanada, mountain stew, and dessert - beverages not included). Following the meal, the adventure continues with a visit to the Huskie's park, where visitors can pamper, spoil and take photos with these friendly pets, followed by a sleigh ride along different trails within the forest. There will be numerous opportunities for photography and to soak in the snowy surroundings. The next adrenaline-filled experience will be a snowmobile journey. Accompanied by a lead guide and after receiving the necessary instructions, we will dive into the excitement of driving these machines through the deep snow, crossing Tierra Mayor Valley on a 5 km route.

Upon returning to the Nunatak's refuge, our visitors will have some time to enjoy a few minutes on the sliding sleds down a small icy slope, bringing a perfect end to a day filled with emotions, adventure, and fun in the snow.

Schedule.

Difficulty: Low-Medium

Duration: 8hs.

Time and place: Your hotel or apartment around 9 am.

Guide service: Spanish/English.
