

EXCURSION LLANOS FULL DAY

It's about spending a day in the mountains, engaging in various adventure activities at Llanos del Castor, one of the main winter centers from Ushuaia. We will pick

you up at your hotel or apartment early in the morning, around 8:30, and then we will transfer you to our facilities in Llanos del Castor. The first activity putting on our snowshoes, snowshoes are very useful when the snow is deep, allowing us to move forward without difficulties.

Next, the second activity takes place on a pre-defined circuit. It involves a ride on snowmobiles or ATVs, depending on the chosen option. Both vehicles are easy to drive. Caravan through the snow-covered

forest. Back at the refuge, the Mushing Experience immerses us in the ancient world of Siberian dogs and the secrets of their care and training for sled travel in the snow. (no sled ride is included). Cross-country skiing class is the final activity, allowing us to enjoy the snow in a more active way. We propel ourselves with the strength of our arms and the assistance of the poles. Around 2:00 pm, we sit at the table in the

restaurant of our winter center, where a large fireplace warms the place and the large windows provide us with the best scenery while we enjoy our meal. After desserts and coffee, we return to the city, savoring the pleasant fatigue of a day in the mountains.
