

## NAVEGATION: SEALION ISLAND AND MARTILLO ISLAND ( PINGUIN ISLAND)

We set sail from the local tourist dock crossing the wide Ushuaia Bay until reaching the Beagle

Channel through Paso Chico. There we sail around the Isla de los Pájaros where we will see the birds of Tierra del Fuego and of the Isla de los Lobos where we can observe sea lions with one and two hairs. Both islands belong to the Bridges

archipelago.

When arriving at the Lighthouse Les Eclaireurs we will be able to appreciate the colonies of Imperial Cormorants and Rocky Cormorants. We will continue touring the Beagle Channel, passing through Puerto Almanza and on the Chilean coast the Puerto Williams Naval

base, and then we will arrive at Martillo Island where we will have the opportunity to see a colony of Magellanic Penguins and some specimens of Papua penguins.

After the tour and avitaje of fueguina fauna, we undertake the return to the city, the north coast of the Canal appreciating the characteristic flora and spotting some historical sites such as Estancia Tunel and Estancia Remolino. Finishing the journey to the city of Ushuaia we will admire the Mountainous cord that is presented together with the fueguino sunset.

**Duration:** 4 and ½ hours approximately

**Departures:** 09:00AM / 04:00PM

**Available during high season (October to April)**
