

EXCURSION SILENCIO ANDINO

We start with the pick up at the hotel, from where we will have a half hour transfer to Llanos del Castor, our winter resort. The excursion consists of 4 outdoor activities, always guided by a trained person. Already in Llanos, we will start the excursion with a low difficulty trekking using snowshoes over a frozen

peat swamp, the more snow

there is, the more useful the

snowshoes are! During the tour, the guide will provide

you with information about the landscape, flora, fauna,

the geofoms that stand out and the beaver farms that

we will see. Then we will go on a snowmobile ride. If

you've never driven one, there will be no obstacle. The

guide will give precise instructions on how to do it and

if you do not want to drive, we will take you. Two people will go on each motorcycle, in the middle of the circuit there will be an optional change of driver so that both can drive.

Finally, we enter the world of mushing where we will learn everything about this ancient activity, with demonstrations in company of our beautiful puppies, with whom we will be able to interact. Next, we will invite you to our cozy restaurant so that you can enjoy an exquisite meal.
