

ISLA DE LOS FUEGOS

KAYAKING ON ESCONDIDO LAKE

The excursion departs from your accommodation, heading towards National Route 3. We will cross the glacial valleys of Tierra Mayor, the highest point in the Andes mountain range: Garibaldi Pass, a panoramic point where we can appreciate the views of the main lakes of Tierra del Fuego. The adventure continues with an off-road circuit to the impressive shore of Fagnano Lake, where we will enjoy the natural beauty of Tierra del Fuego. Here, after a technical briefing, we will begin a water journey, immersed in the Patagonian landscapes and the incomparable silence of nature. At the end of the day, a relaxing experience awaits us at our refuge, where we will enjoy a delicious dinner.
